1. Create a title. Take 15 frames by pressing the space bar.

2. Choose an object to animate.

3. Place the object at the edge of the frame.

4. Make sure your hands are out of the frame before you take a picture.

5. Take your first picture by pressing the space bar.

6. Move your object slightly (about a centimeter) and take another picture.

7. Repeat! (Move Object > Take hands out of frame > Take picture)

8. Press “P” on the keyboard. Your video will appear at the end of the playback sequence.
